Status OPERATIONAL

Help

The screenshot shows the CircleCI web interface for a pipeline named 'majorproject-5-wed-16-30-6'. The pipeline is in a 'Failed' state, indicated by a red circle with an exclamation mark. The error message is: 'No .circleci/config.yml was found in your project. Click Add Config to choose how to add a config file or refer to documentation.' The interface includes a sidebar with navigation links (Pipelines, Projects, Organization Settings, Plan) and a main content area displaying the build details, including the error message and a 'Add config' button.
